Career Objective

A motivated and enthusiastic Computer Science Engineering graduate seeking an entry-level opportunity in the IT industry. Interested in software development, web development, and problem-solving roles where I can apply my technical skills, gain practical experience, and contribute effectively to organizational growth.

Education

B.E. Computer Science and Engineering, Kangeyam Institute of Technology 2022 – 2026
CGPA: 8.2
HSC, Navarasam Matric Higher Secondary School 2020 – 2022
Percentage: 81.2%
SSLC, Navarasam Matric Higher Secondary School 2019 – 2020
Percentage: 94.2%

Technical Skills

Programming: C, Python(Working Knowledge), JavaScript, HTML5, CSS3
Frameworks & Libraries: React.js, Node.js, Express.js
Databases: MongoDB
Tools & Platforms: VS Code, Git, Github, Postman
Concepts: Data Structures, Algorithms, Problem Solving, REST APIs
Soft Skills: Teamwork, Collaboration, Problem-Solving, Continuous Learning.

Projects

- **Expense Tracker (MERN)** – Developed a full-stack software product to manage daily expenses with add, edit, and delete features. Implemented secure authentication and optimized queries, improving app performance by **30%**.
- **Real-Time Sign Language Translator** – Built a digital transformation project using ML to translate sign language into text and voice. Enhanced accessibility for global users with **90%+ accuracy**.
- **Wish List App (MERN)** – Designed a full-stack application allowing users to add, update, and delete wishlist items using MongoDB Atlas. Enabled seamless data management for end-users.
- **Stopwatch Web App** – Created a stopwatch with start, pause, reset, and lap features using HTML, CSS, and JavaScript. Improved user experience with an interactive UI.

- **Rock–Paper–Scissors Game** – Implemented game logic and responsive interface with HTML, CSS, and JavaScript, delivering an engaging client-side product.
- **Advanced Rice Classification System** – Developed an image-processing and machine learning system to classify rice varieties with improved prediction accuracy.
- **AI-Based GST Rate Recommendation System** – Built an AI-powered recommendation system that predicts GST rates and HSN/SAC codes using product images, descriptions, and invoice data.

Internships

- **Web Development Intern – Prodigy InfoTech (July 2025)** Collaborated with a team to deliver client-facing web solutions. Contributed to responsive UI and cloud-ready deployment of web apps.
- **Cybersecurity Intern – The Redusers (Dec 2024 – Jan 2025)** Gained hands-on experience in cybersecurity practices, including vulnerability assessment and security protocols.

Certifications

- AI for Beginners – HP LIFE (July 2025)
- Networking Essentials – Cisco Certified (July 2025)
- MongoDB Certifications (2025): Building RAG Apps, Vector Search, SQL to Document Model, MongoDB Basics
- Create a Lead Generation Messenger Chatbot using Chatfuel - Coursera (July 2025)
- DataBase Management System – NPTEL (2024)
- Excel Dashboard for Beginners – Simplilearn (July 2024)
- TCS iON Career Edge – Young Professional (Aug 2024)
- Cybersecurity Essentials – Cisco Networking Academy (2024)
- Introduction to Cyber Security – Cisco Networking Academy (Sept 2024)
- Introduction to MS Excel – Simplilearn (Sept 2024)
