Professional Summary

Computer Science Engineering Graduate with hands-on experience in MERN Stack Development, AI-powered applications, and Web Development. Skilled in React.js, Node.js, Express.js, MongoDB, JavaScript, Python, and REST APIs. Seeking an entry-level Software Developer or Full Stack Developer role.

Education

B.E. Computer Science and Engineering , Kangeyam Institute of Technology	2022 – 2026
CGPA: 8.2	
HSC , Navarasam Matric Higher Secondary School	2020 – 2022
Percentage: 81.2%	
SSLC , Navarasam Matric Higher Secondary School	2019 – 2020
Percentage: 94.2%	

Technical Skills

Programming: C, Python(Working Knowledge), JavaScript, HTML5, CSS3

Frameworks & Libraries: React.js, Node.js, Express.js

Databases: MongoDB

Tools & Platforms: VS Code, Git, Github, Postman

Concepts: Data Structures, Algorithms, Problem Solving, REST APIs

Soft Skills: Teamwork, Collaboration, Problem-Solving, Continuous Learning.

Projects

AI Resume Analyzer (MERN + AI)

Developed an AI-powered platform for resume analysis, ATS scoring, and personalized feedback using MERN Stack and AI techniques.

Smart GST Chatbot (Python + AI + OCR)

Built an AI-powered GST assistant for GST rate prediction, HSN/SAC code identification, OCR-based invoice extraction, and GSTIN validation.

HabitAI Tracker (MERN)

Developed a full-stack habit tracking application with JWT authentication, analytics dashboards, streak tracking, and activity heatmaps.

Expense Tracker (MERN)

Created a full-stack expense management system with authentication, CRUD operations, transaction tracking, and financial reporting.

Real-Time Sign Language Translator

Published Paper

Designed a machine learning-based system that converts sign language gestures into text and speech with over 90

Advanced Rice Classification System

Published Paper

Developed an image-processing and machine learning solution for accurate rice variety classification and quality assessment.

Certifications

- AI for Beginners – HP LIFE (July 2025)
- Networking Essentials – Cisco Certified (July 2025)
- MongoDB Certifications (2025): Building RAG Apps, Vector Search, SQL to Document Model, MongoDB Basics
- Create a Lead Generation Messenger Chatbot using Chatfuel - Coursera (July 2025)
- DataBase Management System – NPTEL (2024)
- Excel Dashboard for Beginners – Simplilearn (July 2024)
- TCS iON Career Edge – Young Professional (Aug 2024)
- Cybersecurity Essentials – Cisco Networking Academy (2024)
- Introduction to Cyber Security – Cisco Networking Academy (Sept 2024)

Achievements

- Published three research papers on AI and Machine Learning applications, including Sign Language Translation, Smart GST Chatbot, and Rice Classification System.
- Served as President of the Happy Mind Club and coordinated various student engagement activities and events.
- Presented technical papers at national-level conferences on emerging technologies and machine learning applications.
- Developed multiple full-stack web applications using the MERN Stack and AI technologies.

Languages Known

- English (Read, Write, Speak)
- Tamil (Read, Write, Speak)
